

About The Community Solutions Program

The Community Solutions Program (CSP), sponsored by the U.S. Department of State's Bureau of Educational and Cultural Affairs (ECA) and implemented by IREX, provides the best and brightest community leaders, ages 25 to 38, from around the world with an intensive, professional development exchange program that includes a substantive hands-on learning experience in the United States from August to December 2018. Community Solutions Fellows gain valuable experience in community work and strengthen their capacity for leadership and development in their home countries.

Community Solutions leaders work in one of four technical areas: **Environmental Issues, Tolerance and Conflict Resolution, Transparency and Accountability, and Women and Gender Issues.**

Program Activities

Four-month U.S.-based fellowship: CSP fellows are matched with non-profit organizations, private entities, and government offices across the United States where they work with U.S. colleagues on initiatives related to issues they face in their own communities.

Community Leadership Institute: The Community Leadership Institute (CLI) is a leadership academy that provides customized learning and coaching to each CSP Leader. The CLI uses a blended-learning approach, where leaders participate in online sessions and in-person workshops, receive professional coaching, engage in experiential learning, and interact with other professionals in their field.

Community-based initiatives: CSP fellows develop innovative community action projects in collaboration with their U.S. host institutions and implement these projects after they return to their home countries to integrate their new skills and knowledge into their community work at home. Project summaries are made available online, allowing fellows to share their work with other community leaders around the world.

International network of community development professionals: CSP fellows continue to network and collaborate with like-minded leaders from around the world on global development issues through alumni activities and opportunities offered through the Community Leadership Institute online platform.
